#### What's In The Box

**Laptops:**

**Included with Laptop purchase:**
- Power cord and AC adapter.
- Internal optical drives (DVD, DVDRW, CDRW/DVD) and external optical drives are only included when listed in the product description. Please review system configuration details.
- Tested/Functional Dell Battery (Minimal initial battery life is 1.5 hours, many models will exceed this.)
- Office Starter software pre-installed, CD not included.
- Units sold with an Operating System will have a recovery partition on the hard drive. Only included when an Operating System is included in the system’s description. Please check item description.
- Integrated network adapter
- Device Drivers (1) (some drivers may need to be downloaded free of charge from www.support.dell.com)

**Not Included with Laptop purchase:**
- Operating System recovery/repair/dell reinstalls. We recommend using the installed software to create your own restore disk.
